

Mini Rear Loader Model II

The Leach Mini Rear Loader delivers compact power and versatility, available in 6, 8, and 10 cubic yard body options. With a large hopper capacity and full ejection capability, it's built for efficient collection operations. Designed to mount on Class 5 and 6 chassis, it also offers potential non-CDL configurations—making it a smart choice for municipalities and private haulers needing maneuverability and performance in tight urban or rural environments.
