
To: All Distributors, Regional Sales Managers, and National Sales Manager

From: LabriePlus

Model: ALL

Subject: Serial Number Change

All new Labrie, Wittke and Leach bodies will have a new format 17-digit serial number. The first two letters of the serial number will indicate the body-type, the next two digits will indicate the year of manufacture, the next 4 numbers indicate the plant of manufacture, the next six numbers indicate the sales order number, and the last three numbers refer to the sales order line number and release number.

Please make sure your distributor management software or maintenance software will account for this change.
