

Parts & Service Bulletin

To: All Distributors, Regional Sales Managers, and National Sales Manager

From: LabriePlus

ALL Model:

Subject: LabriePlus Technical Support Line

LabriePlus offers exceptional technical support for all Labrie products. This includes Labrie, Wittke, Leach and any other technical concerns. This TSB is to inform callers of information needed when calling the Technical Support Line.

The body serial number is critical when calling tech support. This number contains all information related to the body you are working on. This includes model, year, plant, arm configuration, schematics and all materials used when manufacturing the body.

The Labrie body serial number is in multiple locations of the unit. Locations include stickers on door jams and on the body itself. Labrie also incorporates a welded number above the rear tandems, this is referenced as the production number.

Please contact the LabriePlus Service Department at (800) 231-2771 (US) or (877) 452-2743 (CAN) for questions or further information
